Special in Every Way — High Quality Picture! Sensational Stereo! Closed Caption Decoder!

With JVC's world class audio-visual technologies, the TM-2099U is a big step forward in color monitor/receiver design. Offering exceptional flexibility, the multi-application monitor has a 20-inch Full-Square screen. Unique JVC features include Apacon — a circuit that improves picture clarity by sharpening the transitions between bright and dark to make every detail crisp and sharp. Its front firing speakers direct the full power of MTS Stereo to viewers for a sensational sound experience. The Closed Caption Decoder with text mode delivers enhanced power and flexibility for applications including CATV, teletext, education, and exhibitions. All of these great features are at your command through JVC's handy MASTER COMMAND menu-driven remote control unit.
